BECAUSE

Funding matters

17—19 SEPTEMBER

THE

GFCSA
FUNDING CONFERENCE

about:

The Great Funders' Conference (known in former years as *Funders' Round*) has grown to become the premium forum in South Africa for sharing ideas and strategies for funding models that actually work. With just under 50 speakers and several break-away sessions over three days (17 – 19 September), the conference promises to deliver ground-breaking research, a variety of case studies and input from respected public figures such as former DA leader Tony Leon, author Sizwe Mpofu Walsh, CEO of the Graca Machel Trust Dr Shungu Gwarinda and award-winning talk show host, Penny Lebyane.

Our aim is to devise a broad and inclusive agenda for CSI practitioners as a whole, as well as specific standards for CSI at national, provincial and local level. Community development – whether the community is a school, a village, an urban neighbourhood, health service providers or a cohort of ambitious young entrepreneurs – has to be multi-pronged, engage multiple stakeholders and work across several sectors. Content of the conference is rooted in the realities of our country's diverse needs and will seek practical and tangible solutions to CSI's many challenges.
